To the Collector of Madura.

Read the following telegram from the Collector of Madura dated 3rd August 1902:-

"Your telegram 198. Figures of area under Periyar irrigation were received from Executive Engineer sixteenth July.

Forwarded

"Forwarded to Special Deputy Collector twentieth. His reply is expected soon".

RESOLUTION - Mis.No.4565 dated 4th August 1902. -

In reply to the Official Memorandum from Government, No.289 dated 30th July 1902, the Board begs to state that, as observed in its proceedings No.3800 dated 29th July 1901, the delay in the preparation of the revised forecast of revenue under the Periyar Project is due to the fact that pending decision of the question, whether Inam and Zamin land advantageously situated should be supplied with water in preference to Government land situated at the tail ends of channels, the Executive Engineer has been hitherto unable to furnish a forecast of the area that will be irrigable by the Project. The Government of India having, in para 2 of its letter, communicated with G.O. Mis. No.1303 Rev. dated 21st May 1902, suggested that the forecast might be framed on the assumption that the question, whether Inam and Zamin lands should be supplied with Periyar water in preference to Government lands, would be decided in favour of the former, the Collector was in Board's Proceedings No.3078 dated 2nd June 1902, requested to frame a forecast in accordance with those instructions. In his telegram read above, the Collector states that the statistics relating to area under Periyar Irrigation were received from the Executive Engineer on the 16th July last and forwarded to the Special Deputy Collector on the 20th idem and that his reply is expected soon. The Board begs to state that the revised forecast will be submitted as soon as possible after its receipt from the Collector.
